SMART Evidence

Track Evidence Generation Projects Seamlessly

Strategize

Visualise project data

Interact

Track project milestones and timelines

Get a dashboard view

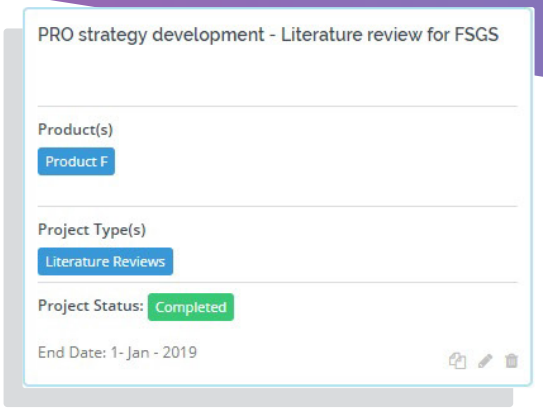
Download content into PPT and Excel

ACCESS INFINITY

Contextualised Data

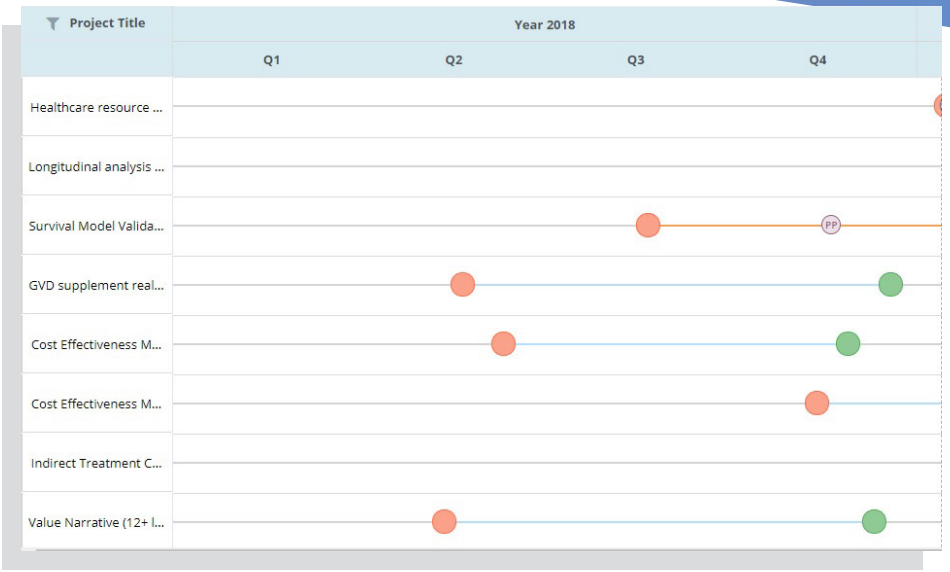
Organise your projects

Use tags to categorise projects by type, location, product and several other parameters



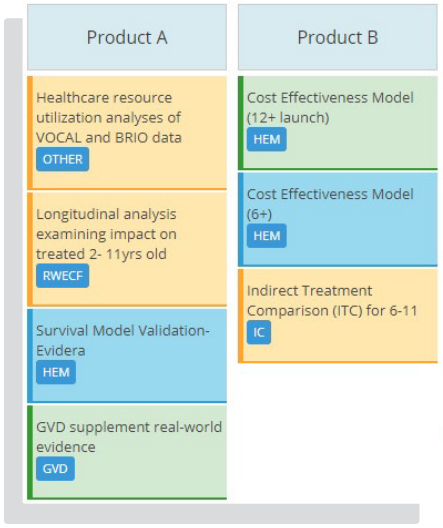
Visualise your project data

Get instant overviews using the visual dashboard's Gantt charts and map views



Strategic Knowledge Bank

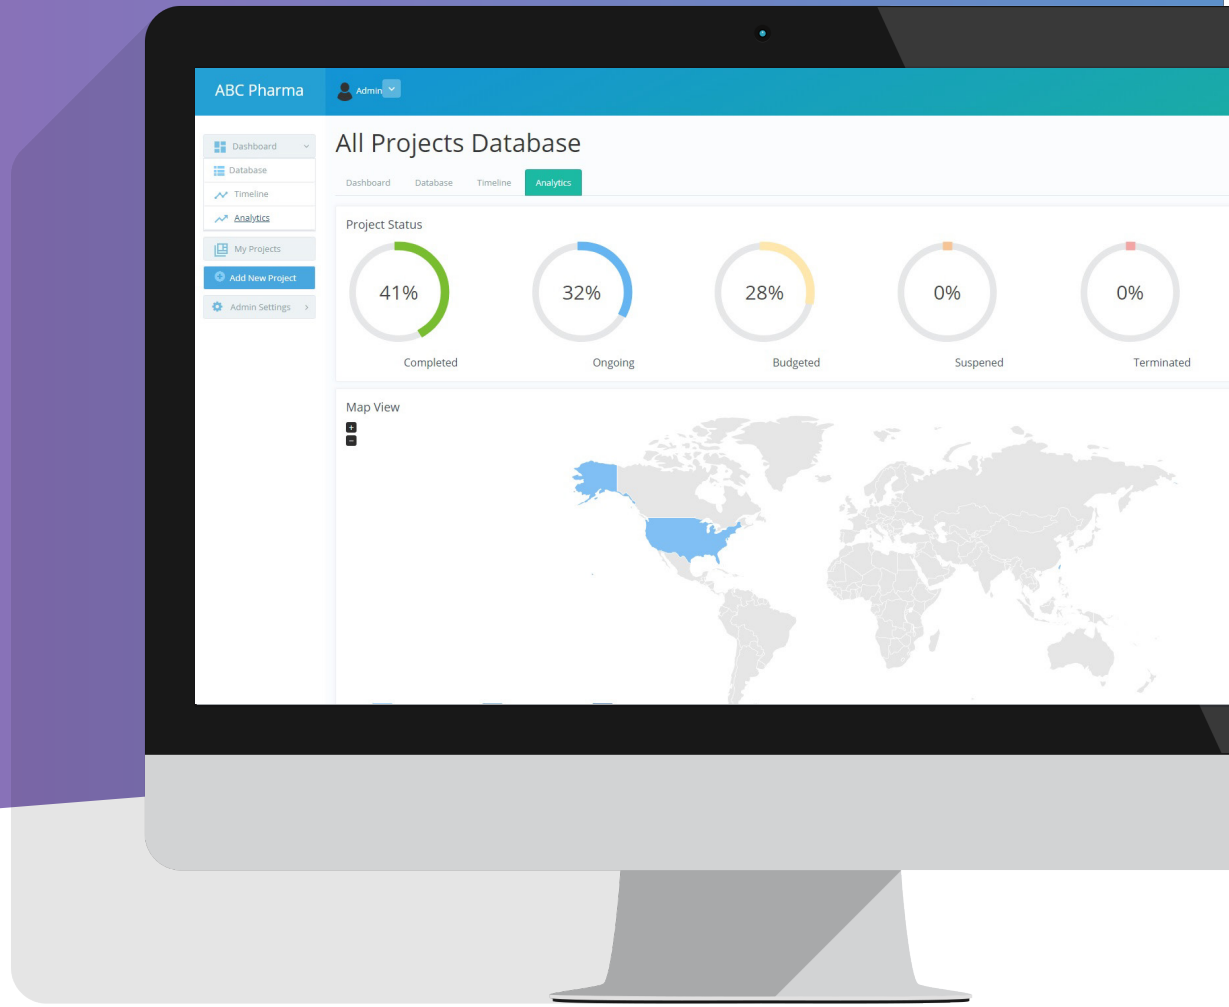
Ensure better engagement between global and country teams with this online knowledge bank



ACCESS INFINITY

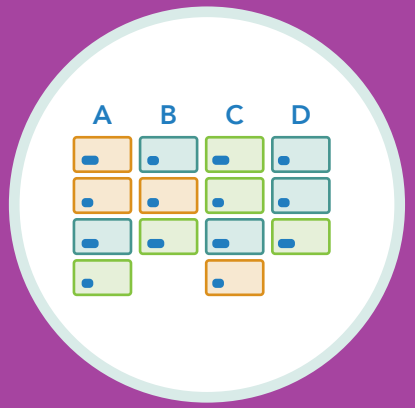
Contextualised Data

A cloud-based solution that enables easy management of RWE projects, while actively encouraging sharing of information and transparency

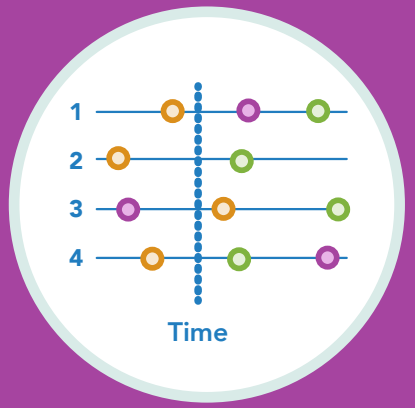


ACCESS INFINITY

SMART Evidence's top features



Access a bird's-eye view of all your projects in one spreadsheet



Measure project progress using the timeline feature

Keep colleagues in the loop by updating the project status dashboard

ACCESS INFINITY

Project Management Made Easy

Bird's-eye view

Sort projects by numerous parameters including "project type" and "status"

Online Spreadsheets

Removes the need for multiple Excel sheets. SMART Evidence's spreadsheet features allows sheets to be viewed by any colleague.

Timeline Tracking

SMART Evidence's interactive timeline shows all your projects and key milestones in one place. Toggle between projects with the click of a button.
